Centerburg Technology Center Capabilities Statement

Executive Summary

Centerburg Technology Center (CTC) is a service-connected disabled veteran-owned company specializing in the installation and servicing of voice and data systems, wired and wireless local area networks, security and access control systems, and related information technology infrastructure services.

CTC was established in 2002 to provide system sales and design, consultation, and maintenance services to residential and commercial users. Currently CTC serves residential clients and small to medium businesses throughout Ohio.

Mission Statement

"Assist individuals and small to medium businesses with acquiring, installing, and maintaining the technology that enhances their lives, frees them of insecurities, and ensures their business environments are successful, safe, and secure."
